

# MENTORING + HEALING OFFERINGS

Stephanie Cristina Engeli Women's Mentor + Healer

As a teenager swept away by dancing, and the dream of having a career as a dancer, I had to come to realize that this industry wasn't what I wanted. I always knew there would be another passion – and waited patiently for it to arrive. 2015 I found Yoga, and fell madly in love two years later graduated as a 200 hour Hatha Yoga Teacher and started teaching immediately. I loved Yoga, yet there was still the feeling that there were some things missing. I did a lot of personal development work, as I have struggled with romantic relationships all my life. It seemed, that I was just not able to "find" a man who would love me as I am and committ to me. By chance, I stumbled upon my first coach, who initiated me into the world of the feminine and Tao-Tantric arts for women. In those sessions with her, something clicked, and I was changed forever. Bit by bit I reclaimed my feminine essence and soul truth. I started expanding in the field of embodiment, holding Women's Circles and teaching the Yoni Egg practice. Shortly after, I started my own coaching practice. 2019 I earned quit my part-time PR job and opened my business full time (after teaching for 2 years on the weekends). Since then, I've guided more than 40 women in my 1:1 mentoring and many more in my in-person workshops and online courses. The passion keeps on going – and my 1:1 is the heartbeat of it.

## MY FOCUS

Most women come to me, when they feel dis-connected from themselves, ungrounded and having lost their feminine essence.

In my work, I guide you back home to yourself, support you in re-connecting to who you truly are and experience deep grounding, rooting and developing unshakeable inner safety. I help women remember what it means to be a woman, reclaim their feminine essence and embrace their very unique feminine expression.

My work is anchored in mentoring/coaching and healing. The most dominant tools I use are somatic practices + healing to create deeper self-connection + rooting, feminine energy practices to embrace every woman's feminine essence and ThetaHealing®, a very deep method to reframe subconscious programing, release limiting beliefs and fears. A big part of my work is as well mother/father wound and inner child healing.
